

HIGH-TICKET TRANSACTIONS IN BRAZIL

Our solution now allows global merchants to process high value transactions in Brazil, either for payment processing or payout. The regular limits can be increased to up to **USD 200K** annually per end-user (per CPF).

High-ticket transactions may occur when end-users purchase from any business type, such as: **high-value bets, high-priced technology items, luxury travel services, SaaS applications or software, extravagant goods, VIP consulting services**, among others. They can also be useful when your company needs to perform high value Payouts to **partners, service providers or end-users**.

Regardless of your business vertical or need, you can unlock the full **potential of Latin America's giant, Brazil**, which in 2023 will reach approximately USD 275 BN in e-commerce volume¹.

ENSURE HIGHER TRANSACTIONAL LIMITS FOR SELECTED END-USERS

Potential end-users may require higher transaction limits, which we can provide so that **your company can build strong relationships that can lead to repeat business and referrals**. In this case, you'll need to collect the end-user's documents and send it to us for analysis. Once they are verified and approved, the registered end-user will be able to process USD 200K annually.
