

THE BEST PAYMENT PROVIDER FOR IGAMING COMPANIES

Our expertise of almost 2 decades in the online gaming industry has now reached the iGaming segment.

Count on one of the biggest fintech companies in Latam. With our knowledge, robust technology, and innovative payments solutions, you'll reach the full potential of Brazilian betting customers.

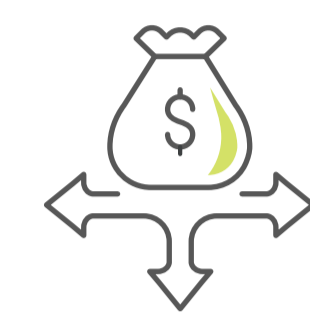

PAYMENT PROCESSING SOLUTION

A complete solution for iGaming merchants to access Brazil by **processing and collecting local payment methods in BRL**, such as **Pix** – and receiving the money from transactions directly in their accounts, anywhere in the world outside the USA.

PAYOUT SOLUTION

Our disruptive solution enables iGaming companies to send **instant payouts to Brazilians in local currency within minutes**, with no integration required and no traditional banking fees, through **Pix** or **PagBank**.

BALANCE COMPENSATION SOLUTION

Here, the **balance from processed transactions can be used to send instant payouts**, optimizing and simplifying their payments needs and **avoiding double FX costs** for money in and money out within a hybrid model, **all in the same operation flow**.

MEET ALL YOUR LOCAL PAYMENT NEEDS

COMPLETE AML/CFT ANALYSIS

All Payment Processing transactions undergo our **Anti-Money Laundering & Combating the Financing of Terrorism (AML-CFT) analysis**, which searches the name of the consumer in the OFAC Sanctions List.

We also offer a **complete document verification (CPF)** and **Politically Exposed Person (PEP) screening**.

PROCESSING CAPABILITY

99.99% availability, with an average response time of 0.5 seconds for transactions. More than **200 transactions are processed per second** on our Payment Processing Solution and over **100 million per year**. On our Payout Solution, **2 million payouts can be processed per day**.

LOCAL AND EXPERT CUSTOMER SUPPORT IN LATAM

Our team is formed by over **70 specialists**, and is **available 24x7** in **Portuguese, Spanish, English, and Turkish** and will help you increase customer loyalty, brand awareness, and client satisfaction. We offer **multiple support channels** such as **Chat, Email** and **WhatsApp**.

SMART FRAUD PREVENTION

Decrease fraud occurrences without harming the approval process for legitimate purposes and increase your numbers securely. Our technology is tailored for the digital goods sector, especially online gaming, one of the most frequent targets of fraud attempts.

With machine learning algorithms tailored for the digital goods segment, we use tools such as **Artificial Intelligence, Scoring, False-positive measuring and External Bureaus** to help you increase your numbers securely.

CHOOSE HOW TO USE OUR SOLUTIONS

- ▶ **Payment Processing** via Direct API, Payment Page and Payment Link, which **doesn't require any integration**;
- ▶ **Payout** via API integration and our dashboard, MyAccount, which **doesn't require any integration**.

DEDICATED ACCOUNT MANAGEMENT

You will have the support of a **regionalized account manager** assigned to you, and a **technical account manager**, so all your unique needs and business requirements are met.

WHY PAGSEGURO?

PagSeguro is PagBank's (NYSE: PAGES) international division and provides **innovative payment solutions**, automating payments, sales, and wire transfers to boost businesses anywhere, in a simple and secure way. Part of the UOL Group – the leader in Brazilian internet –, PagBank acts as an issuer, an acquirer, and a provider of digital accounts, besides offering complete solutions for online and in-person payments in Brazil and, through PagSeguro, in Latin America.
